

# Globalizing Air Pollution

Jintai Lin 林金泰

Dept. of Atmospheric & Oceanic Sciences, School of  
Physics

Web: <http://www.pku-atmos-acm.org/acmCourse.php#GAP>

## Goals

- **Introduce basic scientific facts concerning air pollution transfer at multiple scales**
- **Discuss research frontiers in atmospheric chemistry and climate science related to transboundary pollution**
- **Stimulate interests in solving environmental problems related to globalization of air pollution**

# Main Contents

- **Introduction – globally inter-connected pollution**
- **Sources, sinks and global cycling of key species**
- **Measurements and modeling**
- **Tropospheric chemistry and near-surface air quality**
- **Atmospheric transport of air pollutants: measurements, mechanisms, and impacts**
- **Pollution transport and climate change**
- **Transport of heavy metals, PAHs, and bioaerosols**
- **Economic globalization, trade, and pollution transfer**
- **Air pollution mitigation: local, regional, and global perspectives**
- **Student presentations**

## Requirements and Scoring (成绩)

- Attendance: **10%**
- In-class performance: **20%**, including questions, quiz, discussion
- Term paper option 1: **Literature review. 50%** (5000-6000 words;  $\geq 10$  references; following journal paper structure)
- Term paper option 2: **Small project. 50% x 1.2** (5000-6000 words;  $\geq 10$  references; following journal paper structure)
- Final presentation: **20%** (following seminar structure)
- Individual requests to change scores are discouraged and will not succeed in general
- **Total score is capped at 100%**

## More on Term Paper and Presentation

- Each student works on a topic or project. Discuss with me
- Each presentation takes 25 mins plus 25 mins for questions/discussions; will spend 2-3 weeks at the end of the semester for presentation
- **Deadline for topic selection: April 6th**
- **Deadline for paper & ppt submission: May 18th**
- Structure of paper/ppt: introduction/background, main content, conclusion/discussion
- Scoring of paper/ppt: scientific content, presentation, novelty, timing, taking questions
- Title of paper & ppt: **GAP\_第X题\_姓名+姓名...**

## About Plagiarism (作弊、剽窃)

- **No tolerance!**
- **Forms of plagiarism: citing without reference, quoting without “” sign, too much quoting, etc.**
- **Punishment: fail the class, zero score, departmental/institutional actions, depending on the severity of plagiarism.**
