

Postdoc opportunity in Professor Jintai Lin's group in the Department of Atmospheric and Oceanic Sciences, School of Physics, Peking University

Professor Lin's group is focused on multi-disciplinary studies of globalizing air pollution, transboundary pollution, and environmental and climate impacts. Research areas include satellite remote sensing, atmospheric chemistry & modeling, and economy-trade-emission-pollution-impact analysis. Postdoc positions are available for those with backgrounds in mathematics, physics, chemistry, atmospheric sciences, environmental sciences, industrial ecology, geography, or environmental economics. There are multiple types of postdoc positions with different requirements and compensations (see below). CV is needed for initial contact.

Postdoc recruiting website of Peking University: <http://postdocs.pku.edu.cn/>

Application procedures: <http://postdocs.pku.edu.cn/bshyw/jzsq/index.htm>

Contact: Jintai Lin, Tel : 86-10-62767973, email: linjt@pku.edu.cn (preferred)

Types of postdoctoral positions:

1. National Bo Xin Postdoctoral Fellowship:
<http://postdocs.pku.edu.cn/rdzt/gjbshcxjh/index.htm>

The pre-tax annual salary is about 20,000 RMB higher than that for the Peking University Boya Postdoctoral Fellowship. Other compensations and requirements are similar to Boya.

The application time is usually in January-February, and the result is presented in April.

2. Peking University Boya Postdoctoral Fellowship:
<https://postdocs.pku.edu.cn/tzgg/118091.htm>

3. Peking University Research Postdoc:

Requirements: This is a full-time position. The applicants must have obtained a PhD degree within five years prior to the application date. The applicants may apply in any time.

Process: The applicants must first contact Professor Jintai Lin, with required information, for an initial (and usually the determining) screening. The applicants who have passed the initial screening may then submit their official application materials to the Peking University Postdoctoral Office before 15th of each month for additional check in order to start in the next month.

Compensation : The postdoc will receive a pre-tax annual income of 180,000 RMB, which includes salary (120,000 RMB) and housing subsidy (60,000 RMB). In addition, Peking University pays additional 64,000 RMB for health and retirement insurances.
